

Vision Statement

Mechanical Department will play an important role in the organization through effective provisioning and management of resources for Train Operations, Track Maintenance, Disaster Management and Environment Up gradation, and by evolving and adapting innovative and world class management practices. It will also contribute to the corporation by creating new business opportunities in the areas of Rolling Stock O&M and Infrastructure Development and Management.

Key Objectives

1. Bringing in value added services with cost efficiencies adopting lean management practices
2. Continuously improving availability, reliability and safety standards in Rolling Stock and Track Machine Management
3. Supporting train operation with effective planning and management of Rolling stock, Crew and energy.
4. Building human resource capabilities through training, development and empowerment
5. Enabling vendors and business partners to make them capable value chain partners
6. Developing and adapting product, process and information technologies for seamless transformation towards Industry 4.0
7. Making all round efforts for business development and timely execution of projects in hand.
